ABOUT THE BRAND

HorseLinePRO is a Polish manufacturer of professional supplements and care products for horses. The blend compositions and the concentration of active ingredients in the daily dose have been developed based on research confirming the high effectiveness of the products. The raw materials used in production hold certificates confirming their highest quality. The effectiveness of HorseLinePRO products is achieved through numerous tests and collaborations in their creation with the best riders, farriers, physiotherapists, and veterinarians.

HorseLinePRO Products

Musculoskeletal system
Boswellia Serrata, Chondro Protect, Chondro Clinic, Chondro +HA, ChondroVet +HA, Devil's Claw, Collagen, MSM, TendonFlex

Muscles
Muscle Maker, Muscle Maker doping free, Gamma Oryzanol, Fresh Muscles

Hooves
Biotin Max, Hoof's Help, Blue Frog Slime, Hoof Balm, Hoof Oil, Hoof's Shine

Immunity
ImmuneMax, Vitamin C, Beta-Glucan

Vitamins and minerals
VitaMax, VitaFlex, Grow Up Vital, Zinc Max, Copper Max

Dietary support
Algea, FlyOut, Electrolyte Power Plus, HydroFocus, Garlic, Linseed Oil, Corn Oil, Hemp Oil, Electrolyte +Mg

Liniments
Ice Gel, Ice Clay, Lymphatic, Quick Warm, Relax It Up, Recovery Clay

Care Products:
Skin Help, Hyaluron Heal, Propi Sept, Shine Oil, Derma Care, Snow White, Deep Black, Skin Care, Buzz Shield, Buzz Spray, Buzz Gel, Clear White, Easy Groom+, Glitter Conditioners, Mud Stop Oil

Digestive system
Probiotic, Gastro Care, Liver Care, Brewer's Yeast+

Nervous system
CBD, Chillout, Relax Oil

Respiratory system
Respirol, Respirol Intro+, Breath Oil

Equipment care
Leather Balm, Saddle Soap, Leather Foam

HorseLinePRO ChondroVet +HA

A highly effective product recommended as a dietary supplement to support joint health and mobility, during recovery after orthopedic procedures, and in cases of musculoskeletal discomfort. It is also recommended for performance horses whose locomotor system is subjected to extreme strain. The high concentration of active ingredients in the daily dose helps to effectively nourish and maintain healthy joint structures.

Net weight:
1200 g

SUPPLY approx. 42 days

Application:
- ► joint support and recovery
- ► supporting synovial fluid quality
- ► deep nourishment and protection of the musculoskeletal system

HorseLinePRO Chondro Protect

The product supports healthy joint function, promotes mobility, and aids the natural recovery process. By providing the articular cartilage with essential nutrients, ChondroProtect strengthens its resilience to micro-injuries.

Net weight:
900 g

SUPPLY approx. 30 days

Application:
- ► nourishing joints with essential nutrients
- ► reducing stiffness in joints and muscles (supporting suppleness)
- ► supporting the body's natural anti-inflammatory response

HorseLinePRO Chondro Clinic

The active ingredients in this formula not only nourish the joints (glucosamine and chondroitin) but are also recommended as dietary support for comfort and mobility (Devil's Claw extract). It is particularly recommended for horses requiring specialized care for degenerative changes within the musculoskeletal system (e.g., bone spavin, navicular syndrome), as well as for those prone to joint stiffness and discomfort.

Net weight:
690 g

SUPPLY approx. 30 days

DOPING ALERT
Withdrawal period 5 days prior to competition.

Application:
- ► support for horses with degenerative joint changes
- ► management of joint stiffness and rheumatic conditions
- ► promoting optimal joint mobility

HorseLinePRO Chondro+HA

A product supporting the replenishment of natural synovial fluid reserves. A nutritional complex derived from a combination of hyaluronic acid, glucosamine hydrochloride, and chondroitin sulfate. It helps reduce stiffness within the musculoskeletal system and supports lasting flexibility. It protects against excessive wear and tear while promoting natural joint recovery.

Net volume:
2 x 1000 ml

SUPPLY approx. 33 days

Application:
- ► optimal joint nourishment
- ► supporting joint resilience and protection
- ► supporting synovial fluid quality

HorseLinePRO Boswellia Serrata

A proven composition of boswellic acid, MSM, and Vitamin C supports efficient musculoskeletal recovery after exercise. It helps reduce stiffness in muscles and joints and provides beneficial support for horses prone to joint discomfort associated with rheumatic and arthritic conditions.

Net weight:
500 g, 900 g, 2000 g

SUPPLY
approx. 25, 45 and 100 days

Application:

- ► reducing muscle and joint stiffness
- ► promoting efficient post-training recovery
- ► supporting the body's natural anti-inflammatory response

HorseLinePRO Devil's Claw

This 4:1 Devil's Claw extract is a highly concentrated formula. It serves as an excellent dietary addition to support the body's natural anti-inflammatory response and promote muscle and joint comfort.

Net weight:
300 g, 700 g

SUPPLY
approx. 30 i 70 days

DOPING ALERT
Withdrawal period
5 days prior to competition.

Application:

- ► support for rheumatic and arthritic conditions
- ► degenerative joint changes support
- ► reducing musculoskeletal stiffness

HorseLinePRO Collagen

Highly absorbable hydrolyzed collagen protein, which serves as a fundamental building block for tissues throughout the body. It supports the strength and elasticity of connective tissue, including tendons and ligaments. It helps maintain the integrity of articular cartilage and bone while promoting optimal mineral absorption. Additionally, it promotes a healthy appearance of the skin, coat, and hooves.

Net weight:
300 g, 800 g

SUPPLY
approx. 37 i 100 days

Application:

- ► tendon protection and nourishment
- ► enhancing musculoskeletal flexibility
- ► promoting healthy coat and hoof condition

HorseLinePRO MSM

MSM is a source of organic sulfur, which plays a vital role in cartilage recovery and maintenance. It assists in the structural formation of tendons, ligaments, and muscles. It contributes to the synthesis of collagen and keratin. It helps reduce oxidative stress, supporting the body during intensive exercise, such as competitions. Sulfur deficiencies can lead to soft tissue stiffness.

Net weight:
500 g, 700 g,
1300 g, 3000 g

SUPPLY
approx. 50, 70, 130 and 300 days

Application:

- ► musculoskeletal protection and strengthening
- ► reducing stiffness in muscles, tendons, and joints
- ► supporting the recovery of tendons and ligaments

HorseLinePRO TendonFlex

A combination of highly bioavailable ingredients designed to support the health and condition of tendons and ligaments. It provides essential dietary support during recovery and following soft tissue injuries. These ingredients promote optimal nourishment and strengthening of tendons and ligaments, aiding natural recovery processes and providing structural protection.

Net weight:
900 g, 1500 g, 3500 g

SUPPLY
approx. 30, 50, 115 days

Application:

- ► nourishment and protection of musculoskeletal soft tissues
- ► supporting post-injury tendon recovery
- ► enhancing connective tissue strength and flexibility

HorseLinePRO Muscle Maker

A blend of highly bioavailable substances supporting the efficient development of healthy and strong musculature. It visibly strengthens muscles, promotes efficient recovery, and helps delay fatigue by supporting optimal lactic acid metabolism.

Net weight:
Muscle Maker 1200 g,
Muscle Maker Doping Free 1050 g

SUPPLY
approx. 40 and 30 days

Muscle Maker 1200 g
DOPING ALERT
Withdrawal period
5 days prior to competition.

Application:

- ► developing strong and healthy musculature
- ► promoting efficient muscle tissue recovery
- ► enhancing muscle strength and endurance

HorseLinePRO Fresh Muscles

A product for active horses that supports lactic acid metabolism in the muscles. It promotes recovery even after intensive exertion. It enhances resistance to fatigue and helps maintain muscle integrity. Recommended for use during competitions and periods of increased physical activity.

Net volume:
1000 ml

Application:

- ► post-exercise muscle recovery
- ► reducing muscle soreness
- ► muscle protection and relaxation

HorseLinePRO Gamma Oryzanol

Rice bran extract that supports the development of strong and healthy musculature. It promotes muscle fiber resilience during physical exertion and supports natural skeletal muscle recovery processes. Gamma-Oryzanol aids in metabolic support and helps manage the physical effects of excess weight. It also supports reduced dietary fat absorption.

Net weight:
150 g

SUPPLY
approx. 50 days

DOPING ALERT
Withdrawal period
5 days prior to competition.

Application:

- ► muscle development
- ► muscle recovery and strengthening
- ► supporting body fat reduction

HorseLinePRO Biotin Max

A product with elevated biotin and DL-methionine levels, featuring an optimal copper-to-zinc ratio for horses. It supports the development of a strong and healthy hoof capsule. This formula uses the highest quality ingredients and chelated trace elements, characterized by high bioavailability, ensuring efficient and effective replenishment of nutritional deficiencies.

Net weight:
500 g, 1000 g, 3000 g

SUPPLY approx. 50, 100 and 300 days

Application:
- ► hoof nourishment and strengthening
- ► promoting hoof growth rate
- ► promoting healthy coat and skin quality

HorseLinePRO Hoof's Help

This formula was specifically developed for horses with poor hoof condition (cracks, bruising, white line issues) requiring intensive strengthening. A high concentration of bioavailable ingredients (biotin, DL-methionine, chelated zinc and copper, MSM) ensures excellent supplementation results. It promotes hoof growth rate and strengthens all hoof structures.

Net weight:
1500 g, 3500 g

SUPPLY approx. 90 and 210 days

Application:
- ► intensive hoof recovery support
- ► strengthening hoof structures in cases of bruising, cracks, or laminitis
- ► promoting hoof capsule growth rate

HorseLinePRO Copper Max

Chelated copper recommended as a dietary supplement for copper-deficient diets. Copper plays a beneficial role in maintaining healthy connective tissue (ligaments, tendons) and supporting articular cartilage development, while also facilitating iron transport throughout the body.

Net weight:
310g

SUPPLY approx. 30 days

Application:
- ► promoting healthy coat, mane, and tail pigmentation
- ► enhancing hoof condition
- ► replenishing copper deficiencies confirmed by blood tests

HorseLinePRO Zinc Max

A product containing chelated zinc to enrich zinc-deficient diets. Zinc deficiency can manifest as recurring skin infections, hair loss, and brittle hoof horn. Additionally, zinc plays a beneficial role in maintaining healthy mucous membranes (stomach, intestines).

Net weight:
345 g

SUPPLY approx. 30 days

Application:
- ► promoting healthy skin and hoof condition
- ► reducing skin issues
- ► replenishing zinc deficiencies confirmed by blood tests

HorseLinePRO Vitamin C

Vitamin C (L-ascorbic acid) is a powerful antioxidant that plays a beneficial role in maintaining the physiological balance of connective, cartilaginous, and bone tissues. It participates in the synthesis of collagen, elastin, and hyaluronic acid. Increased demand for Vitamin C occurs in situations such as stress (transport, competitions), intensive physical activity, lack of pasture access, recovery, weakness, and allergies. When using collagen and/or MSM, additional Vitamin C supplementation is recommended to achieve optimal results.

Net weight:
600 g, 1000 g

SUPPLY approx. 30 and 50 days

Application:
- ► body conditioning and strengthening
- ► supporting natural physiological processes
- ► reducing oxidative stress

HorseLinePRO Brewer's Yeast+

Yeast is a rich source of protein and natural B-group vitamins. A guaranteed high level of beta-glucans (25%) supports the immune system. Regular use aids digestive system function, promoting optimal feed utilization.

Net weight:
1000 g, 2500 g

SUPPLY approx. 100 and 250 days

Application:
- ► digestive and immune system support
- ► promoting optimal feed utilization
- ► rich nutritional properties

HorseLinePRO Beta-Glucan

A rich complex of natural B vitamins containing high levels of beta-glucans (80%) and mannan-oligosaccharides (MOS) isolated from pure brewer's yeast (Saccharomyces cerevisiae). It provides essential dietary support during recovery and in cases of general physical weakness. It visibly strengthens the immune system response.

Net weight:
300 g, 600 g

SUPPLY approx. 30 and 60 days

Application:
- ► supporting the immune system
- ► promoting a healthy response to allergens
- ► promoting overall body condition

HorseLinePRO ImmuneMax

Effectively activates the body's immune response regardless of the source of the problem. Recommended in cases of decreased condition and training performance, as well as in stressful situations such as transport, competitions, clinic stays, or stable changes.

Net weight:
450 g

SUPPLY approx. 30 days

Application:
- ► supporting immune function
- ► body strengthening and conditioning
- ► promoting a healthy response to allergens

HorseLinePRO VitaMax

A high-quality complex of bioavailable vitamins and minerals. The product supports the physical condition of all horses. It revitalizes the body during increased physical exertion, pregnancy, and lactation, as well as during recovery. It supports healthy body function and supplements the diet with essential vitamin and mineral nutrients. Particularly recommended for diets based primarily on oats and hay.

Net weight:
2500 g, 5000 g

SUPPLY approx. 50 and 100 days

Application:
- ► enriching the diet with vitamins and minerals
- ► body revitalization
- ► supporting optimal vitamin and mineral levels

HorseLinePRO VitaFlex

A highly bioavailable complex of vitamins, minerals, and substances supporting the musculoskeletal system. Dedicated to supplementing the diet of active horses in athletic training. The addition of glucosamine, chondroitin, and MSM supports healthy musculoskeletal function. A complex of essential vitamins, macro-, and microelements promotes physical condition and revitalizes the body during increased physical exertion.

Net weight:
2000 g, 5000 g

SUPPLY approx. 32 and 80 days

Application:
- ► meeting increased vitamin and mineral requirements
- ► musculoskeletal nourishment and protection
- ► body revitalization

HorseLinePRO Grow Up Vital

A vitamin and mineral blend supporting the healthy growth and development of foals, weanlings, and young horses. The addition of joint-nourishing substances such as glucosamine, chondroitin, and collagen serves as a building block for the entire musculoskeletal system. Adequate intake of active ingredients during the growth and development phase helps support healthy bone and joint formation.

Net weight:
2000 g, 5000 g

Application:
- ► supplementing the diet with vitamins and minerals
- ► nourishing the musculoskeletal system
- ► providing substances essential for proper growth and development

HorseLinePRO Algea

Algae is a rich source of highly bioavailable components with antioxidant properties, vitamins, minerals, and amino acids. It contains natural iodine, which is particularly important in the diet of horses from areas characterized by lower levels of this element. The presence of amino acids promotes muscle development. Additionally, algae improves the quality of the coat, skin, and hooves, and is an essential dietary component supporting the body's detoxification processes.

Net weight:
1500 g

SUPPLY aprox. 50 days

Application:
- ► supplementing the diet with iodine (signs of deficiency: coughing, lethargy, excessive shedding)
- ► enriching the diet with natural vitamins, minerals, and amino acids
- ► improving the condition of hooves, skin, and coat

HorseLinePRO Garlic

A natural product for horses made from pure, ground garlic (Allium sativum L.). Recommended as a dietary supplement to support the respiratory tract and during periods of lowered immunity (aids in maintaining natural resistance against pathogens). Administered regularly during the summer period, it enhances the natural protective barrier against insects.

Net weight:
800 g, 1400 g

SUPPLY approx. 40 and 70 days

Application:
- ► protection against mosquitoes, botflies, and ticks
- ► rich source of antioxidants
- ► reducing allergic reactions

HorseLinePRO FlyOut

A natural, herbal supplement for horses with a high content of polyphenols and volatile aromatic compounds. Regular use beneficially contributes to altering the horse's body odor, making it less attractive to external parasites such as mosquitoes, botflies, ticks, and black flies. Additionally, it provides a rich source of antioxidants, supports immunity and aids in soothing allergic reactions following insect bites.

Net weight:
700 g, 1500 g

Application:
- ► protection against mosquitoes, botflies, and ticks
- ► rich source of antioxidants
- ► reducing allergic reactions

HorseLinePRO BuzzSpray

A spray formulated with natural ingredients, creating a protective barrier against insects. It does not contain chemical detergents, preservatives, or any substances hazardous to humans, animals, or the environment. It does not cause coat discoloration. It does not irritate the respiratory tract and can be safely used in performance horses, those with respiratory issues, pregnant mares, and foals.

Net volume:
700 ml

Application:
- ► 100% natural composition
- ► effective barrier against insects
- ► formula safe for foals, the respiratory system and the environment

HorseLinePRO BuzzGel

Insect repellent gel. Effectively reduces insect attraction by masking the horse's natural odor. Thanks to the gradual release of ingredients, it provides long-lasting effects, ensuring comfort and peace during the summer season - both in the pasture and during training.

Net volume:
600 ml

Application:
- ► gel formula makes product application easier
- ► slow-release scent formula ensures prolonged action
- ► safe for horses with respiratory issues

HorseLinePRO Respirol

The product aids in neutralizing mycotoxins - harmful factors impacting the performance of the respiratory system in horses (dust and mold sensitivities). Respirol actively binds mold spores from the immediate environment (bedding, feed) and aids in the removal of mycotoxins from the body, thereby promoting the improvement of condition and performance in performance and breeding horses.

Net weight:
600 g, 1200 g

SUPPLY
approx. 30 and 60 days

Application:
- ► improving respiratory performance
- ► aiding in soothing the cough
- ► reducing the negative impact of mold spores on the body

HorseLinePRO Respirol Intro+

Syrup for horses recommended as a dietary supplement for respiratory support in cases such as: cough, mucus buildup, and RAO. Ingredients of the blend, such as Boswellia serrata, marshmallow, and potassium iodide, provide excellent support for lung ventilation as well as the management of mucus overproduction.

Net volume:
1000 ml

SUPPLY
approx. 30 and 60 days

Application:
- ► improving respiratory performance
- ► antifungal and antibacterial properties
- ► soothing and expectorant action

HorseLinePRO HydroFocus

Electrolytes are recommended for use in case of increased sweating (high temperature, physical exertion, stress) as well as fever and/or diarrhea. The product contains the correct sodium, chlorine, and potassium ratio for horses (2:2:1). The formula has been additionally enriched with calcium and magnesium. All this contributes to maintaining the horse's peak performance.

Net volume:
1000 ml

Application:
- ► replenishing and balancing electrolyte deficiencies
- ► shortening recovery time after exertion
- ► increasing physical performance

HorseLinePRO Electrolyte Power Plus

A product recommended for performance horses as a dietary supplement during very intense exertion. It shortens recovery time, provides energy, and supports optimal physical performance during long-term exertion. The appropriate ratio of elements replenishes mineral deficiencies lost through sweat, thereby maintaining the electrolyte balance at the correct level.

Net weight:
1500 g, 3000 g

SUPPLY
approx. 35 and 70 days

Application:
- ► shortening recovery time after exertion
- ► balancing electrolyte levels
- ► source of energy

Julia Jaglarz

A rider regularly competing in Grand Prix classes and on the international stage. With her passion for equestrianism, she inspires young riders and shares proven horse training methods with a wide range of followers.

Recommended by Julia Jaglarz

HorseLinePRO Electrolyte + Mg

Electrolytes for horses with magnesium have been formulated to support horses in the most demanding situations. Carefully selected ingredients aid in the rapid replenishment of electrolyte deficiencies. The addition of magnesium supports proper muscle and nervous system function, which contributes to increased performance and faster recovery of the horse after exertion. Ideal for horses under high workloads, in training, as well as during diarrhea.

Net volume:
1000 ml

Application:
- ► replenishing and balancing electrolyte deficiencies
- ► shortening recovery time after recovery
- ► supporting proper muscle function

HorseLinePRO Probiotic

A product designed to enrich and stabilize the gastrointestinal microflora responsible for the proper course of digestive processes. Recommended for use during dietary changes, for supporting the immune system and metabolism, as well as during medication/antibiotic administration.

Net volume:
1000 ml

SUPPLY
approx. 18 days

Application:
- ► neutralizing pathogenic microflora
- ► aiding digestive processes
- ► improving digestive system function

HorseLinePRO Corn Oil

First-press, cold-pressed corn oil, reduces gastric acid production, which is important for horses with gastric sensitivities. It normalizes the pH level of gastric juices. The oil is rich in omega-6 fatty acids, supports the proper function of the immune and digestive systems, providing comprehensive care. Furthermore, it improves the quality of the coat, skin, and hooves, and provides essential energy.

Net volume:
2000 ml

Application:
- ► normalizes the pH level of gastric juices
- ► supports horses with gastric sensitivities
- ► supports the proper function of the digestive and immune systems

HorseLinePRO Gastro Care

A product supporting the proper functioning of the horse's digestive system. Recommended as a dietary supplement during antibiotic therapy, after deworming, colics, and poisonings. Improves digestive processes, the secretion of digestive juices, bile, and body detoxification.

Net weight:
700 g

SUPPLY
approx. 46 days

Application:
- ► supporting the digestive system
- ► improving liver function
- ► improving nutrient utilization

HorseLinePRO Hemp Oil

A blend of unrefined, cold-pressed oils - linseed and hemp. A source of beneficial omega-3, 6, and 9 fatty acids. Regular use helps improve the quality of the coat, skin, and hooves. Supports the proper function of the immune and digestive systems.

Net volume:
1000 ml, 2000 ml

DOPING ALERT
Withdrawal period:
5 days before competitions.

Application:
- ► rich source of omega-3, 6, and 9 fatty acids
- ► support for the digestive and immune systems
- ► source of slow-release energy

HorseLinePRO Liver Care

LiverCare is recommended as a dietary supplement during the administration of antibiotics and medications placing a load on the liver (anti-inflammatories, painkillers, steroids), after deworming, colics, and poisonings. Silymarin and cynarin improve physiological liver functions, stimulate bile secretion, and promote liver cell recovery. Silymarin stimulates detoxification and the formation of new hepatocytes. Cynarin stabilizes cholesterol levels.

Net weight:
600 g

SUPPLY
approx. 30 days

Application:
- ► liver recovery
- ► body detoxification
- ► liver support during medication administration

HorseLinePRO Hemp Pellet

Coarsely ground flour from dried Cannabis sativa L. leaves with added hemp oil, in pellet form. Free from psychoactive substances (THC < 0.2%). Supports nervous, young, or overexcitable horses by helping reduce stress during training, rehabilitation, transport, or stable changes. An ideal dietary supplement for horses with musculoskeletal, digestive, or metabolic issues.

Net weight:
1500 g, 2500 g

DOPING ALERT
Withdrawal period:
7-10 days before competitions.

Application:
- ► reducing anxiety symptoms
- ► supporting the body in states of pain and inflammation
- ► calming and improved concentration

HorseLinePRO Linseed Oil

First-press, cold-pressed linseed oil. Provides unsaturated omega-3 and omega-6 fatty acids in proportions appropriate for horses. It beneficially promotes the improvement of coat, skin, and hoof quality and supports the digestive system. It is a source of highly bioavailable, slow-release energy (increases stamina during training).

Net volume:
2000 ml, 5000 ml

Application:
- ► improving coat, skin, and hoof condition
- ► highly bioavailable source of slow-release energy
- ► improving the overall condition of the body

HorseLinePRO Chillout

A product designed for hyperactive and spooky horses to soothe states of tension and increase the degree of concentration during training. It aids in achieving mental balance in horses in a short time in case of anxiety and stress of various origins (competitions, training, transport, changing stables). The product is also dedicated to horses in a recovery period with limited exercise.

Net weight:
720 g

SUPPLY
approx. 30 days

Application:
- ► reducing nervous and muscle tension
- ► increasing concentration
- ► improving the function of the nervous system

Aleksandra Mudry

A rider and instructor who daily teaches young horses and introduces them to the world of sport.
Furthermore, as an influencer, she shares her passion and experience with a wide range of equestrian lovers.

Recommended by Aleksandra Mudry

HorseLinePRO Ice Clay

A natural clay based on mountain arnica extract possessing strong astringent properties, thereby effectively aiding in reducing swelling. It improves recovery processes, bringing rapid relief to tired and overstrained limbs. Recommended for use on hematomas, inflammatory exudates, and swelling of various origins, including joint pain and bruising. The addition of boswellic acids and MSM speeds up tissue recovery.

Net weight:
1400 g

Application:
- ► limb recovery and relaxation after exertion
- ► reduction of swelling: bruises, injuries, circulation issues
- ► absorption of bruises and hematomas

HorseLinePRO Lymphatic

A doping-free liniment for post-exertion recovery of the limbs. Regularly used alongside proper massage, it improves lymph flow, thereby aiding in the prevention of congestive, inflammatory, oncotic, and lymphatic swelling. In a short time, it brings a sense of relief even after very intense exertion.

Net volume:
600 ml

Application:
- ► recovery and relaxation of the limbs after exertion
- ► reduction of swelling (congestive, post-injury)
- ► improvement of lymph flow

HorseLinePRO Ice Gel

A regenerating limb gel providing an immediate cooling sensation. The unique composition of MSM, menthol, arnica, and frankincense extracts aids in managing inflammatory processes, actively cools, and brings relief to overstrained and tired limbs. Recommended for use immediately after exertion (training, competition) or on areas of bruising and injuries.

Net volume:
650 ml

DOPING ALERT
withdrawal period:
3 days before
competitions

Application:
- ► long-lasting cooling effect
- ► limb recovery after exertion
- ► reduction of swelling

HorseLinePRO Relax It Up

A liquid liniment with regenerating effects. Initially cools, and then warms, which beneficially influences microcirculation and blood flow in the areas where the liniment has been applied, accelerating recovery processes. Quickly and effectively brings relief to overstrained body parts, providing a feeling of relaxation. Additionally, it can be used before training to warm up the muscles.

Net volume:
750 ml

DOPING ALERT
Withdrawal period:
3 days before
competitions

Application:
- ► massage of tense body parts
- ► stimulation of circulation within soft tissues
- ► recovery of limbs and muscles after exertion

HorseLinePRO Quick Warm

A warming, stimulating liniment. Amber extract and a composition of essential oils (ginger, rosemary, eucalyptus, clove) provide a deep warming effect without causing irritation. Used before exertion, it improves muscle and joint flexibility, preparing the horse for exercise. After training, it supports recovery, accelerates the relaxation process, and reduces muscle tension.

Net volume:
700 ml

Application:
- ► stimulates circulation and improves muscle flexibility
- ► prepares muscles for exertion or massage
- ► supports recovery after training

Adam Grzegorzewski

Polish representative at the Paris 2024 Olympic Games, winner of the Grand Prix CSI4* in Arezzo and CSI2* in Wrocław.
Multiple Polish Championship medalist, 2025 Senior Vice-Champion of Poland.

polecam,
Adam Grzegorzewski

HorseLinePRO Recovery Clay

Clay with strong recovery properties, designed for sport horses, after muscle and tendon injuries, or during the convalescence period. Effectively soothes inflammatory processes, reduces discomfort, and supports the rapid recovery of damaged tissues. Comfrey, aloe, and propolis contained in the formula accelerate the recovery of muscles and tendons, while zinc stimulates collagen and elastin production, improving flexibility and durability. Amber extract supports microcirculation. Regular use supports the horse's rapid return to full fitness after intense exertion and injuries.

Net weight:
1000 g

DOPING ALERT
Withdrawal period:
5-7 days before competitions

Application:
- ► intense recovery after injuries and tendon strains
- ► reduction of inflammatory processes and discomfort
- ► improving tissue flexibility and durability

HorseLinePRO Propi Sept

Sanitizing liquid for skin injuries in horses. Cleanses and supports the recovery of cuts, abrasions, or chafing. Propolis extract has antimicrobial properties, which aids in managing fungi, viruses, and bacteria, while leaving the skin deeply cleansed. Plant-based glycerin contained in the product adds flexibility and improves the elasticity of the damaged skin surface, helping to protect against further skin integrity issues.

Net volume:
250 ml

Application:
- ► cleansing fresh wounds and cuts
- ► supporting the recovery of abrasions and chafing
- ► care for sensitive skin after injuries

HorseLinePRO Hyaluron Heal

Balm supporting the recovery of wounds and abrasions. Protects the skin against cracking and dryness. Propolis accelerates cellular metabolism and faster tissue restoration. Hyaluronic acid is responsible for making the skin more elastic. Aloe has anti-inflammatory and antibacterial properties. D-panthenol exhibits softening, smoothing, and regenerating properties. Also recommended for burns, insect bites, and sweet itch.

Net volume:
200 ml

Application:
- ► deep hydration and improvement of skin elasticity
- ► faster restoration of the skin at the site of injury
- ► antiseptic and antibacterial action

HorseLinePRO Skin Help

Skin cream with CBD and beta-glucan for horses. Product recommended for skin issues such as: abrasions, allergies, sweet itch, or bacterial infections. Its ingredients contribute to improving the hydration and elasticity of the skin, shorten the recovery period of injuries, and reduce the risk of stiff scar formation. It is easily absorbed, without leaving a greasy or sticky layer.

Net volume:
200 ml

DOPING ALERT
Withdrawal period:
7-10 days before competitions

Application:
- ► soothes symptoms of scratches, sweet itch, and skin allergies
- ► deeply hydrates and improves skin elasticity
- ► accelerates skin recovery and coat regrowth

horseline.pro

Discover our COSMETICS

The HorseLine range offers many cosmetics that provide care at the highest level. Regular use helps maintain the coat, skin, and hooves in excellent condition. Shampoos, available in 5 versions, thoroughly cleanse, nourish, and smooth the coat while providing a brilliant shine. To facilitate the detangling of knots, we have introduced a mane and tail spray, and for owners of grey horses - a stain-removing conditioner. Regenerating bit balms, as well as antibacterial oils and a moisturizing hoof balm, will be the perfect complement to daily care.

HorseLinePRO Saddle Soap

Leather cleaning soap distinguished by a high content of natural aloe and moisturizing glycerin. Designed for cleaning leather equestrian equipment. It nourishes and aids in recovery, while leaving the leather soft and elastic. The propolis contained in it protects against microorganisms that degrade leather, thereby extending its lifespan and functionality. The product does not exhibit irritating or sensitizing properties.

Net volume:
400 ml

Application:

- ► effective removal of dirt
- ► care and recovery of equestrian equipment
- ► nourishment and hydration

HorseLinePRO Leather Balm

Leather balm created on the basis of propolis, which perfectly nourishes, cares for, and preserves leather, maintaining its natural properties. The product protects leather elements from damage caused for example by moisture or mold. It aids in recovery and polishes even heavily damaged elements. It keeps the leather exceptionally soft, conditioned, and elastic.

Net volume:
400 ml

Application:

- ► care and preservation of equestrian equipment
- ► restoration of elasticity and softness
- ► protection against cracking and drying out

HorseLinePRO Leather Foam

High-yield foam for washing equestrian equipment. Effectively removes dirt, fungi, and bacteria, without causing excessive soaking of the leather. The delicate applicator with a brush allows for precise and safe cleaning of even hard-to-reach areas. Regular use protects the leather against hardening, while providing elasticity and flexibility.

Net volume:
150 ml

Application:

- ► effective removal of dirt and microorganisms
- ► safe cleaning without excessive soaking of the leather
- ► quick application and easy product use

Glitter mist conditioners

Glitter mists with various scents, designed for horses. They care for and nourish the coat, mane, and tail. Thanks to particles, they provide a beautiful shine, and mineral particles shimmer in both daylight and artificial light. Available in three variants: gold (caramel brownie scent), pearly pink (smelling like sweet gummies), and silver (with a fresh aroma of tropical fruits).

Net volume:
500 ml

Application:

- ► creates a spectacular shine effect
- ► light, non-weighing-down formula
- ► provides an aromatic scent

Shine Oil - moisturizing oil

Moisturizing bit balm with added fine, shimmering glitter. A composition of oils for caring for the horse's delicate muzzle, complemented by beautifully shimmering glitter particles. The addition of aloe and vitamin E accelerates the recovery of wounds, deeply nourishes, and prevents skin dryness. The product gives the horse's muzzle a beautiful shine and leaves it hydrated and nourished for a long time.

Net volume:
250 ml

Application:

- ► provides a beautiful sparkle and shine
- ► hydrates and prevents the skin of the muzzle from drying out
- ► accelerates the recovery of wounds

Relax Oil - moisturizing oil

Hydrating, relaxing bit balm for horses. The addition of lavender oil aids in reducing nervous tension and mitigating stress. The composition has been enriched with hemp oil, which possesses antiseptic properties. Aloe accelerates the recovery of wounds and improves skin elasticity. Lavender aromatherapy promotes relaxation and aids in achieving peace. Regular use prevents skin damage.

Net volume:
250 ml

Application:

- ► relaxes, reduces nervous tension and stress
- ► exhibits antiseptic properties
- ► nourishes and hydrates the delicate skin of the muzzle

Breath Oil - moisturizing oil

Hydrating bit balm improving breathing. The addition of aloe accelerates the recovery of wounds, deeply nourishes, and prevents skin dryness. Regular use helps avoid abrasions caused, for example, by equestrian equipment. Aromatherapy with eucalyptus and pine oil improves lung ventilation and provides antiseptic effects on the respiratory system.

Net volume:
250 ml

Application:

- ► aids in clearing the respiratory tract
- ► hydrates and aids recovery
- ► protects against abrasions and muzzle damage

Derma Care - hypoallergenic shampoo

Delicate shampoo created for horses with sensitive skin and a tendency for allergies. It reduces excessive skin peeling. It soothes itching and irritation, while also thoroughly cleansing and caring for the hair. Aloe leaf extract supports skin recovery. It leaves a shiny and nourished coat and prevents knots from forming in the mane and tail.

Net volume:
500 ml

Application:

- ► cleanses dirt and supports skin recovery
- ► soothes itching and irritation
- ► reduces excessive skin flaking

Snow White - shampoo for grey horses

Purple shampoo for grey horses. The carefully selected formula perfectly cleanses dirt of all origins, leaving a silvery shine and a cool tone on the coat. The shampoo nourishes and cares for the hair, while providing comprehensive protection. Thanks to its properties, it prevents hair tangling, while facilitating brushing, which is essential for maintaining a healthy coat structure.

Net volume:
500 ml

Application:

- ► neutralizes stains of various origins
- ► leaves a silvery shine and a cool tone on the coat
- ► nourishes and cares for the coat

Deep Black - shampoo for dark horses

Shampoo created for black and dark-colored horses. The product emphasizes the value of their coat and superbly highlights the depth of the black color. It effectively removes dirt, cares for the hair, and provides a beautiful shine. It prevents hair tangling and dust accumulation, while facilitating brushing and maintaining cleanliness.

Net volume:
500 ml

Application:

- ► highlights the characteristics of dark coats
- ► thoroughly cleanses and provides a shine
- ► cares for and nourishes the hair

Skin Care - skin support shampoo

Shampoo for horses with skin issues. It contains tea tree oil, known for its antibacterial, antifungal, and anti-itching properties. Regular use reduces dandruff and soothes skin inflammation. Aloe leaf extract supports skin recovery, soothes irritation, and neutralizes unpleasant odors. It thoroughly cleanses and cares for the coat, leaving it shiny and healthy.

Net volume:
500 ml

Application:

- ► aids in protecting against infections, supports the management of skin issues
- ► soothes skin inflammation
- ► neutralizes unpleasant odors

Buzz Shield - insect protection shampoo

Citronella shampoo that effectively repels insects. The product thoroughly cleanses and cares for the hair, leaving the coat shiny and nourished. Additionally, aloe leaf extract soothes irritation and supports skin recovery. The product facilitates brushing the coat and removing dirt. Its natural formula is safe for animals and the environment.

Net volume:
500 ml

Application:

- ► creates a protective barrier against insects
- ► provides comfort during periods of increased insect activity
- ► thoroughly nourishes and cares for the hair

Clear White - stain-removing conditioner

Conditioner that effectively removes stains of various origins. Created for grey and light-colored horses, as well as those with markings. This cosmetic restores the natural silvery shine of the coat and ensures cleanliness. It works excellently as a dry shampoo for horses, helping to quickly get rid of dirt while nourishing the hair. Perfectly suited for competitions or in situations where bathing the horse is not possible during colder days.

Net volume:
700 ml

Application:
- ► neutralizes stains and dirt
- ► whitens grey areas of the coat and provides a silvery shine
- ► provides brilliance and nourishes the hair structure

Easy Groom+ - mane and tail conditioner

Conditioner that facilitates brushing of the mane and tail without excessive pulling or breaking of the hair. The unique formula provides an immediate nourishing effect, adds shine, and also protects against new dirt. It facilitates daily care, significantly shortening cleaning time and reducing the amount of hair pulled out.

Net volume:
700 ml

Application:
- ► facilitates brushing of the mane and tail
- ► adds shine and nourishes the hair structure
- ► protects against dirt accumulation

Hoof Oil i Hoof's Shine

Regenerating hoof oils recommended for weak, dry, and cracked hoof walls. They strengthen and add elasticity to the hoof horn, while helping to maintain proper lubrication. They protect the hoof against the negative impact of external factors. The addition of lavender and tea tree oil provides the product with antibacterial and antifungal properties.

Net volume:
450 ml

Available in
the standard version
and with glitter

Application:
- ► recovery, lubrication, and improvement of elasticity
- ► protection against the negative impact of external factors
- ► antifungal and antibacterial action

Hoof Balm - regenerating hoof serum

Concentrated serum stimulating intense hoof recovery and nourishment. Adds elasticity and protects against pathogens. Maintains long-lasting hydration, while also protecting against cracking and drying.

Net volume:
600 ml

Application:
- ► intense hoof recovery
- ► hydration and improvement of elasticity
- ► long-lasting effect

HorseLinePRO Blue Frog Slime

Innovative gel for the care of thrush in horses. Thanks to a unique formula based on copper sulfate, the gel exhibits strong antibacterial, antifungal, and antiseptic properties. Hyaluronic acid contained in the product is responsible for maintaining proper water content in tissues, thereby hydrating and making the hooves more elastic. It is ideal for horses kept on damp ground.

Net volume:
300 ml

Application:
- ► aiding in the care of thrush
- ► hoof sole protection
- ► recovery after hoof trimming

HorseLinePRO Mud Stop

Oil eliminating scratches and the factors that cause them. It creates a hydrophobic coating on the skin and coat, preventing the development of bacteria and microorganisms. Mud Stop also protects against the recurrence of scratches. The sulfur contained in the product has antifungal, antibacterial, and cleansing properties. Glauconite clay exhibits anti-inflammatory and sanitizing effects.

Net volume:
250 ml

Application:
- ► supporting the recovery of scratches, antibacterial and antifungal action
- ► prophylactic support, aiding in the prevention of scratches recurring
- ► skin protection, creates a hydrophobic barrier

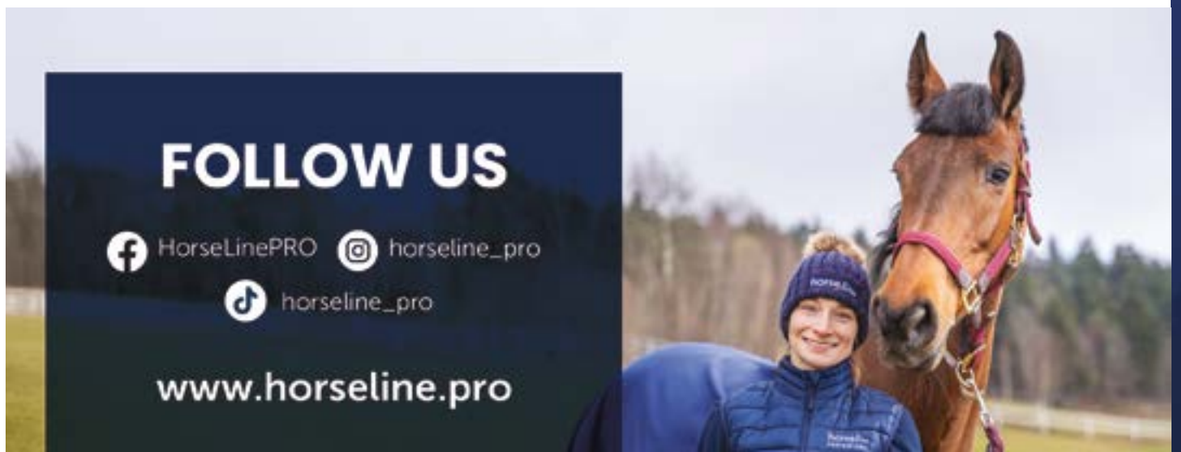

Himalayan salt lick

Salt lick for horses is an essential dietary element, providing a natural source of sodium, which plays a key role in maintaining proper water-electrolyte balance. Sodium is a mineral that horses cannot produce on their own, so it must be regularly provided in appropriate quantities.

Net weight:
0,8-1,5 kg
2,5-3,5 kg

Application:
- ► supports muscle and nervous system function
- ► stimulates thirst, helping to avoid dehydration
- ► helps maintain optimal condition
